

Open multi-source inputs

H3 assembly (R9)

Learning & blocked evaluation

Diagnostics & outputs

Flood labels
(DEP stormwater, 311, USGS Ida HWM)

Static predictors
(elevation, slope, impervious,
building density, distance-to-water)

Rainfall condition r
(constant synthetic; not radar)

Join layers to H3 cells

Provenance tags
(assembly · feature · label · rainfall)

Gradient-boosting classifier
+ continuous-risk regressor

H3-block GroupKFold spatial CV

Logistic, ponding & constant-class baselines

PFI_{h(c,r)}

Scale-loss Jaccard ladder
(R10 → R9 / R8)

Adaptive refinement
(PFI_h-guided → R11)

Sandy coastal-overlap diagnostic

FEMA Sandy negative control
(never a training label)
